

# UCF Foundation Exam Practice

When hitting the **Play** button, you will be given a random question from the past UCF Foundation Exams. There will be a timer of 10 minutes to pace yourself but don't worry, you can go past the time limit.

When you are done, hit the **Stop** button to stop the timer and check your work with the answer key. You will also be able to see how you paced yourself. You can then press the **Play** button again to get another question and start the timer again.

The Exam Info section will provide you the exam Reference Sheet as well as the Exam Statistics for the test of the current question you are on.

You can change your theme with the **Theme Switcher** button next to the **Play/Stop** button.

Good Luck!
